

ACCOUNTOR GROUP

Is Accounting your area of expertise or essential for your core business?

Do you have digital and effective accounting and financial management processes?

Does your financial reporting provide reliable and updated information for decision-making?

Do you face the challenge of finding qualified accountants and bookkeepers?

Do you want to achieve cost savings of 20 % or more?

Talk to us if these questions are relevant to your company. We provide services to 15,000 companies in 8 countries - today.

As Accountor Group we serve companies of all sizes in a great variety of branches. Over the last 10 years we have developed unique service concepts covering the needs of small, mid-sized and large companies.

We focus on developing innovative solutions for advanced financial management including payroll administration as well as professional controller and management services, always being one step ahead of the market.

Tailor-made solutions that last

Our partnership will always start with an in-depths analysis of your current financial management system and an identification of your specific needs and ideas. As a result of this change management project we will provide you with tailor-made processes and reports to support your company in the best possible way. For example, the purchase invoices and travel expense claims approval will be web-based afterwards, accessible anytime and anywhere.

You don't have to worry about recruitment, changes in legislation, accounting software, archiving, data security and many other issues. Everything is included in our service and all systems can be accessed through the Internet.

It is time to change

We would like to discuss the opportunities and potential of financial management outsourcing against the background of your company and to assess the possibility of a sustainable partnership.

Please book a meeting [here](#). Besides you are also more than welcome to contact me by email: hansjorgen.rasmussen@accountorgroup.com.

Yours faithfully

Hans Jørgen Rasmussen
CEO Denmark
